Please accept words of sincere gratitude and deep appreciation for the generous present to the whole our team for the new school year. You solved our urgent problem – replacing of rotten floor of the school ground floor and renovate group and sleeping room in the boarding-school. Children and teachers are happy that now they have a reliable, beautiful, warm floor. Teachers place the furniture with pleasure, design the classes, preparing to start a new school year. In a new view flashed such rooms as room of psychological relaxation, library, logopedic office. Recreation of the ground floor of the school which is used as an assembly hall for school events (concerts, festivals, sport events), is ready for the festive line dedicated to the Day of Knowledge. Beautiful and comfortable bedroom and group room are waiting for their young masters. **Dear friends!** We believe in maintaining of existing cooperation and friendship, hope for further collaboration.
